| Product Description        | This gene encodes the type I keratin 9, an intermediate filament chain expressed only in the terminally differentiated epidermis of palms and soles. Mutations in this gene cause epidermolytic palmoplantar keratoderma.... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                   |
| Molecular Weight           | 62kDa                                                                                                                                                                                                                        |
