| Product Description        | MIF promotes the systemic inflammatory response by counter-regulating glucocorticoid-mediated inhibition of immune-cell activation and proinflammatory cytokine production. MIF may mediate tissue destruction through the induction of proteinases.... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                              |
| Molecular Weight           | Calculated MW: 12 kDa, Observed MW: 12 kDa                                                                                                                                                                                                              |
