| Category                   | Antikörper                                                                                                                                                                                                                                                                               |
| Species Reactivity         | Human                                                                                                                                                                                                                                                                                    |
| Immunogen                  | Immunogen was synthetic peptide derived from human Retinol-binding protein 4. This antibody was produced from a rabbit immunized with the immunogen. The IgG fraction was purified from rabbit serum by ammonium sulphate precipitation followed by Protein A/G affinity chromatography. |
| Product Description        | Rabbit Anti-Human RBP4 (C-term.) Antibody...                                                                                                                                                                                                                                             |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                                               |
