| Manufacturer               | RayBiotech                                                                                                                                                                                                                |
| Category                   | Kits/Assays                                                                                                                                                                                                               |
| Product Description        | The RayBiotech Lactate Dehydrogenase Activity Assay Kit offers a user-friendly, reliable, and highly sensitive method for quantifying LDH activity in plasma, serum, cell lysates, and other biological fluid samples.... |
| Form                       | 96-well Microplate                                                                                                                                                                                                        |
| Samples                    | Cell Culture Supernatants, Plasma, Serum, Tissue Lysates, Other Body Fluids, Cell Lysates                                                                                                                                 |
| Application Notes          | Colorimetric                                                                                                                                                                                                              |
