| Alternative Catalog Number | AMO-M29398-5MG, AMO-M29398-10MG                                                                                                                                                                         |
| Manufacturer               | Abmole Bioscience                                                                                                                                                                                       |
| Category                   | Biochemikalien                                                                                                                                                                                          |
| Product Description        | AP-C5 displays selective inhibition of guanosine 3',5'-cyclic monophosphate (cGMP)-dependent protein kinase II (cGKII) with a pIC50 of 7.2, which can be used for the research of diarrheal disease.... |
| Molecular Weight           | 275.31                                                                                                                                                                                                  |
| Purity                     | 99.0%                                                                                                                                                                                                   |
| CAS Number                 | [2234272-10-5]                                                                                                                                                                                          |
| Formula                    | C16H13N5                                                                                                                                                                                                |
