| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | Mouse                                                                                                                                                                                                                                                         |
| Product Description        | This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse GLMP. Standards or samples are added to the micro ELISA plate wells and combined with the specific ant... |
| Range                      | 0.31-20ng/mL                                                                                                                                                                                                                                                  |
| Sensitivity                | 0.123ng/mL                                                                                                                                                                                                                                                    |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | GLMP                                                                                                                                                                                                                                                          |
