| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Species Reactivity         | Rat                                                                                                                                                                                                                                                           |
| Product Description        | This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Rat AOPP. During the reaction, Rat AOPP in the sample or standard competes with a fixed amount of Rat AOPP on the solid phase sup... |
| Range                      | 24.69-2000pg/mL                                                                                                                                                                                                                                               |
| Sensitivity                | 8.66pg/mL                                                                                                                                                                                                                                                     |
| Samples                    | Serum,plasma and other biological fluids                                                                                                                                                                                                                      |
| Target                     | AOPP                                                                                                                                                                                                                                                          |
