| Conjugation                | FITC                                                                                                                                                                                                                                                          |
| Product Description        | FITCLabeled Human BCMA, His Tag (BCAHF2H3) is produced via conjugation of FITC to Human BCMA, His Tag with a new generation sitespecific technology under Star Staining labeling platform. Human BCMA, His Tag is expressed from human 293 cells (HEK293).... |
| Tag                        | C-10*His                                                                                                                                                                                                                                                      |
| NCBI                       | <a href="#">02223</a>                                                                                                                                                                                                                                         |
| Buffer                     | PBS, pH7.4                                                                                                                                                                                                                                                    |
