## Product Datasheet

### Human TL1A / TNFSF15 Protein, His Tag, active trimer, low endotoxin (MALS verified), Unconjugated ABS-TLA-H5243-100UG

|                            |                                                                                                                                                                                                                                                              |

| Product Description        | TNFlke cytokine 1A (TL1A) and its receptors, death receptor 3 (DR3) and decoy receptor 3 (DcR3) are members of the TNF and TNF receptor superfamilies of proteins, respectively. Binding of APCderived TL1A to lymphocytic DR3 provides costimulatory sig... |
| Molecular Weight           | 22.4 kDa                                                                                                                                                                                                                                                     |
