| Product Description        | This gene encodes a member of the family of non-receptor type Tyr protein kinases. This protein is widely expressed in hematopoietic cells and is involved in coupling activated immunoreceptors to downstream signaling events that mediate diverse cellu... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | FC (intra)                                                                                                                                                                                                                                                    |
| Molecular Weight           | 72kDa/70kDa                                                                                                                                                                                                                                                   |
