| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant protein (or fragment). This information is considered to be commercially sensitive.                                                                                                                                                               |
| Conjugation                | ABflo 610                                                                                                                                                                                                                                                     |
| Product Description        | The protein encoded by this gene belongs to the immunoglobulin superfamily, and TIM family of proteins. CD4-positive T helper lymphocytes can be divided into types 1 (Th1) and 2 (Th2) on the basis of their cytokine secretion patterns. Th1 cells are i... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | FC                                                                                                                                                                                                                                                            |
| Molecular Weight           | 33kDa                                                                                                                                                                                                                                                         |
