## Product Datasheet

### **Multiplex Assay Kit for Rho Associated Coiled Coil Containing Protein Kinase 1 (Rock1) ,etc. by FLIA (Flow Luminescence Immunoassay) USC-LME705HU**

|                            |                                                                                                                                      |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Article Name               | Multiplex Assay Kit for Rho Associated Coiled Coil Containing Protein Kinase 1 (Rock1) ,etc. by FLIA (Flow Luminescence Immunoassay) |
| Biozol Catalog Number      | USC-LME705HU                                                                                                                         |
| Supplier Catalog Number    | LME705Hu                                                                                                                             |
| Alternative Catalog Number | USC-LME705HU-96                                                                                                                      |
| Manufacturer               | Cloud-Clone                                                                                                                          |
| Category                   | Kits/Assays                                                                                                                          |
| Species Reactivity         | Human                                                                                                                                |
| Product Description        | 48T, 96T, 96T*5, 96T*10, 96T*100...                                                                                                  |
| Range                      | 0.0098-10ng/mL                                                                                                                       |
| Sensitivity                | The minimum detectable dose of this kit is typically less than 0.0033ng/mL                                                           |
| Samples                    | serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids                                 |
| Application Notes          | FLIA Kit for Antigen Detection.                                                                                                      |
