### ELISA Kit for Immunoglobulin M (IgM) USC-SEA543PO

|                            |                                                                         |
|----------------------------|-------------------------------------------------------------------------|
| Article Name               | ELISA Kit for Immunoglobulin M (IgM)                                    |
| Biozol Catalog Number      | USC-SEA543PO                                                            |
| Supplier Catalog Number    | SEA543Po                                                                |
| Alternative Catalog Number | USC-SEA543PO-48, USC-SEA543PO-96                                        |
| Manufacturer               | Cloud-Clone                                                             |
| Category                   | Kits/Assays                                                             |
| Species Reactivity         | Porcine                                                                 |
| Product Description        | 48T, 96T, 96T*5, 96T*10, 96T*100...                                     |
| Range                      | 15.6-1,000ng/mL                                                         |
| Sensitivity                | The minimum detectable dose of this kit is typically less than 7.3ng/mL |
| UniProt                    | <a href="#">K7ZJP7</a>                                                  |
| Samples                    | serum, plasma, and other biological fluids                              |
| Application Notes          | Enzyme-linked immunosorbent assay for Antigen Detection.                |
