| Conjugation                | FITC                                                                                                                                                                                                                                                             |
| Product Description        | Plays a role as adhesion receptor functioning by homophilic interactions and by clustering. Recruits SH2 domain-containing proteins SH2D1A/SAP. Increases proliferative responses of activated T-cells and SH2D1A/SAP does not seem to be required for this p... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                       |
| Concentration              | 1ug/ul                                                                                                                                                                                                                                                           |
