## Product Datasheet

### Recombinant human GFAP protein, His, Biotin Conjugated BSS-BS-42001P-BIOTIN

|                            |                                                                                                                             |
|----------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Article Name               | Recombinant human GFAP protein, His, Biotin Conjugated                                                                      |
| Biozol Catalog Number      | BSS-BS-42001P-BIOTIN                                                                                                        |
| Supplier Catalog Number    | bs-42001P-Biotin                                                                                                            |
| Alternative Catalog Number | BSS-BS-42001P-BIOTIN-20,BSS-BS-42001P-BIOTIN-100,BSS-BS-42001P-BIOTIN-500                                                   |
| Manufacturer               | Bioss                                                                                                                       |
| Category                   | Proteine/Peptide                                                                                                            |
| Species Reactivity         | Other                                                                                                                       |
| Conjugation                | Biotin                                                                                                                      |
| Tag                        | N-His                                                                                                                       |
| Buffer                     | Lyophilized from 0.22um filtered solution in 20mM PB (pH 7.4). 5% trehalose is added as a protectant before lyophilization. |
| Source                     | Recombinant human GFAP protein is expressed in E.coli with N-His.It contains the amino acid sequence of 1-390/432           |
| Expression System          | E.coli                                                                                                                      |
| Purity                     | >90% as determined by SDS-PAGE                                                                                              |
