| Product Description        | This gene encodes coagulation factor XI of the blood coagulation cascade. This protein is present in plasma as a zymogen, which is a unique plasma coagulation enzyme because it exists as a homodimer consisting of two identical polypeptide chains link... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
