| Alternative Catalog Number | NSJ-F43370-0.4ML                                                                                          |
| Manufacturer               | NSJ Bioreagents                                                                                           |
| Host                       | Rabbit                                                                                                    |
| Category                   | Antikörper                                                                                                |
| Application                | ELISA, IHC, WB                                                                                            |
| Species Reactivity         | Human, Mouse                                                                                              |
| Immunogen                  | A portion of amino acids 124-152 from the mouse protein was used as the immunogen for this PAK3 antibody. |
| Product Description        | Key regulator of synapse formation and plasticity in the hippocampus....                                  |
| Clonality                  | Polyclonal                                                                                                |
| UniProt                    | <a href="#">Q61036</a>                                                                                    |
| Purity                     | Antigen affinity                                                                                          |
| Form                       | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                |
| Antibody Type              | Primary Antibody                                                                                          |
| Application Dilute         | Western blot: 1:1000, Immunohistochemistry (Paraffin): 1:10-1:50                                          |

#### Application Notes

Titration of the PAK3 antibody may be required due to differences in protocols and secondary/substrate sensitivity.
