| Host                       | Rabbit                                                                                                   |
| Category                   | Antikörper                                                                                               |
| Application                | ELISA, WB                                                                                                |
| Species Reactivity         | Human                                                                                                    |
| Immunogen                  | A portion of amino acids 44-73 from the human protein was used as the immunogen for this IL-22 antibody. |
| Product Description        | Cytokine that contributes to the inflammatory response in vivo. [UniProt]...                             |
| Clonality                  | Polyclonal                                                                                               |
| UniProt                    | <a href="#">Q9GZX6</a>                                                                                   |
| Purity                     | Antigen affinity                                                                                         |
| Form                       | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                               |
| Antibody Type              | Primary Antibody                                                                                         |
| Application Dilute         | Western blot: 1:1000                                                                                     |

Application Notes

Titration of the IL-22 antibody may be required due to differences in protocols and secondary/substrate sensitivity.
