| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Human full-length TNFRSF18 protein was used as the immunogen for this TNFRSF18 antibody.                                                                                                                                                                      |
| Product Description        | The tumor necrosis factor receptor (TNFR) superfamily represents a growing family of type I transmembrane glycoproteins that are involved in various cellular functions, including proliferation, differentiation and programmed cell death. These protein... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [GITR/1585]                                                                                                                                                                                                                                                   |
| UniProt                    | <a href="#">Q9Y5U5</a>                                                                                                                                                                                                                                        |
| Purity                     | Protein G affinity chromatography                                                                                                                                                                                                                             |

|                    |                                                                                   |
|--------------------|-----------------------------------------------------------------------------------|
| Form               | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide        |
| Antibody Type      | Primary Antibody                                                                  |
| Application Dilute | ELISA (order BSA-free format for coating & Azide)                                 |
| Application Notes  | Optimal dilution of the TNFRSF18 antibody should be determined by the researcher. |
