| Manufacturer               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Host                       | Mouse                                                                                                                                                                                                                                                         |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant full-length human EIF4A2 protein was used as the immunogen for the EIF4A2 antibody.                                                                                                                                                               |
| Product Description        | Translation initiation in eukaryotes necessitates the assembly of an 80S ribosomal complex. Eukaryotic initiation factors (eIFs) are utilized in a sequence of reactions that leads to 80S ribosomal assembly and initiation of translation. Mammalian euk... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [PCRP-EIF4A2-2B5]                                                                                                                                                                                                                                             |
| UniProt                    | <a href="#">Q14240</a>                                                                                                                                                                                                                                        |
| Purity                     | Protein A/G affinity                                                                                                                                                                                                                                          |
| Form                       | 1 mg/ml in 1X PBS, BSA free, sodium azide free                                                                                                                                                                                                                |

|                    |                                                                                 |
|--------------------|---------------------------------------------------------------------------------|
| Antibody Type      | Primary Antibody                                                                |
| Application Dilute | ELISA (order BSA-free format for coating)                                       |
| Application Notes  | Optimal dilution of the EIF4A2 antibody should be determined by the researcher. |
