| Manufacturer               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Host                       | Mouse                                                                                                                                                                                                                                                         |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC-P                                                                                                                                                                                                                                                         |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant full-length human PMEPA1/TMEPAI protein was used as the immunogen for the recombinant PMEPA1 antibody.                                                                                                                                            |
| Product Description        | PMEPA1 (prostate transmembrane protein, androgen induced 1 is a 287 amino acid single-pass membrane protein that contains WW-binding motifs and localizes to the cell membrane. Expressed at high levels in prostate, kidney and ovary, PMEPA1 interacts w... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [rPMEPA1/6422]                                                                                                                                                                                                                                                |
| UniProt                    | Q96W9                                                                                                                                                                                                                                                         |
| Purity                     | Protein A/G affinity                                                                                                                                                                                                                                          |

|                    |                                                                                             |
|--------------------|---------------------------------------------------------------------------------------------|
| Form               | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                     |
| Antibody Type      | Primary Antibody                                                                            |
| Application Dilute | Immunohistochemistry (FFPE): 1-2ug/ml                                                       |
| Application Notes  | Optimal dilution of the recombinant PMEPA1 antibody should be determined by the researcher. |
