| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, FACS                                                                                                                                                                                                                                                   |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Recombinant full-length human protein was used as the immunogen for the RXRG antibody.                                                                                                                                                                        |
| Product Description        | Two families of retinoid receptors, RARs and RXRs, have been identified. Retinoic acid receptors (RARs) include RARa, RARb and RARg, each of which have a high affinity for all trans-retinoic acids and belong to the same class of nuclear transcription... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [PCRP-RXRG-5G6]                                                                                                                                                                                                                                               |
| UniProt                    | <a href="#">P48443</a>                                                                                                                                                                                                                                        |
| Purity                     | Protein A/G affinity                                                                                                                                                                                                                                          |

|                    |                                                                               |
|--------------------|-------------------------------------------------------------------------------|
| Form               | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide       |
| Antibody Type      | Primary Antibody                                                              |
| Application Dilute | ELISA (order BSA-free format for coating),Flow cytometry: 1-2ug/million cells |
| Application Notes  | Optimal dilution of the RXRG antibody should be determined by the researcher. |
