| Application                | ICC, IHC                                                                                                                                                                                                                                          |
| Species Reactivity         | Human, Mouse, Rat, Zebrafish                                                                                                                                                                                                                      |
| Immunogen                  | Fusion protein amino acids 932-1043 (intracellular carboxyl terminus) of rat KCC2 (accession number Q63633) produced recombinantly in E. Coli                                                                                                     |
| Conjugation                | FL550                                                                                                                                                                                                                                             |
| Product Description        | Our Anti-KCC2 mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N1/12. It detects human, mouse, rat, and zebrafish KCC2, and is purified by Protein A chromatography. It is great for use in IHC, ICC.... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                        |
| Concentration              | 0.5 mg/mL                                                                                                                                                                                                                                         |

|                   |                                              |
|-------------------|----------------------------------------------|
| Clone Designation | [N1/12]                                      |
| Molecular Weight  | 140 kDa                                      |
| Isotype           | IgG2a                                        |
| UniProt           | <a href="#">Q63633</a>                       |
| Buffer            | PBS with 0.09% azide                         |
| Target            | KCC2                                         |
| Antibody Type     | Primary Antibody                             |
| Application Notes | Format: Purified by Protein A chromatography |
