| Product Description        | Our Anti-Tyrosine Hydroxylase (TH) mouse monoclonal primary antibody from Antibodies Incorporated is produced in-house from hybridoma clone LNC1. It detects chicken, frog, human, lizard, monkey, mouse, rat, vole, and zebrafish Tyrosine Hydroxylase (T... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Concentration              | Ascites fluid                                                                                                                                                                                                                                                 |
| Clone Designation          | [LNC1]                                                                                                                                                                                                                                                        |

|                   |                                             |
|-------------------|---------------------------------------------|
| Molecular Weight  | 59-63 kDa                                   |
| Isotype           | IgG1                                        |
| UniProt           | <a href="#">P07101</a>                      |
| Buffer            | PBS, 1 mM EDTA, 0.065% Sodium Azide pH 7.4. |
| Target            | Tyrosine Hydroxylase (TH)                   |
| Antibody Type     | Primary Antibody                            |
| Application Notes | Format: Ascites fluid                       |
