| Product Description        | Interleukin 15 is also known as IL15, IL15, and is a cytokine with structural similarity to IL2. Like IL2, IL15 binds to and signals through the IL2/IL15 beta chain (CD122) and the common gamma chain (gammaC, CD132). IL15 is secreted by mononuclear p... |
| Molecular Weight           | 12.9 kDa                                                                                                                                                                                                                                                      |
| Tag                        | Native                                                                                                                                                                                                                                                        |
