| Alternative Catalog Number | ASB-OPPA02437-100UG                                                                                                                                                            |
| Manufacturer               | Aviva                                                                                                                                                                          |
| Host                       | E. coli                                                                                                                                                                        |
| Category                   | Proteine/Peptide                                                                                                                                                               |
| Application                | ELISA, LF                                                                                                                                                                      |
| Species Reactivity         | Virus                                                                                                                                                                          |
| Product Description        | Recombinant Human Papillomavirus 18...                                                                                                                                         |
| Purity                     | The recombinant HPV-16 fusion protein was purified by GSH affinity chromatography technique.<br/>Purity: Greater than 95% pure as determined by 10% PAGE (Coomassie staining). |
| Form                       | The protein is formulated with 1x PBS and 0.5mM EDTA. Physical appearance: Sterile filtered clear liquid formulation.                                                          |
