| Article Name               | POP5 Antibody - middle region                                                                                                                                    |
| Biozol Catalog Number      | ASB-ARP56774_P050                                                                                                                                                |
| Supplier Catalog Number    | ARP56774_P050                                                                                                                                                    |
| Alternative Catalog Number | ASB-ARP56774_P050-25UL,ASB-ARP56774_P050-100UL                                                                                                                   |
| Manufacturer               | Aviva                                                                                                                                                            |
| Host                       | Rabbit                                                                                                                                                           |
| Category                   | Proteine/Peptide                                                                                                                                                 |
| Application                | WB                                                                                                                                                               |
| Species Reactivity         | Bovine, Canine, Equine, Guinea pig, Human, Mouse, Rabbit, Rat, Sheep, Zebrafish                                                                                  |
| Immunogen                  | The immunogen is a synthetic peptide directed towards the middle region of human POP5                                                                            |
| Product Description        | POP5 is a component of ribonuclease P, a protein complex that generates mature tRNA molecules by cleaving their 5-ends.POP5 is also a component of RNase MRP.... |
| Clonality                  | Polyclonal                                                                                                                                                       |
| Concentration              | 0.5 mg/ml                                                                                                                                                        |
| Molecular Weight           | 19 kDa                                                                                                                                                           |
| NCBI                       | <a href="#">51367</a>                                                                                                                                            |
| UniProt                    | <a href="#">Q969H6</a>                                                                                                                                           |

|      |                                                                                                   |
|------|---------------------------------------------------------------------------------------------------|
| Form | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose. |
