| Species Reactivity         | Bovine, Canine, Equine, Goat, Guinea pig, Human, Mouse, Porcine, Rabbit, Rat, Zebrafish                                                                                                                                                                       |
| Immunogen                  | The immunogen is a synthetic peptide directed towards the N terminal region of human CASP7                                                                                                                                                                    |
| Product Description        | This gene encodes a protein which is a member of the cysteine-aspartic acid protease (caspase) family. Sequential activation of caspases plays a central role in the execution-phase of cell apoptosis. Caspases exist as inactive proenzymes which underg... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Concentration              | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Molecular Weight           | 37kDa                                                                                                                                                                                                                                                         |
