Product Datasheet

Human Gly(Glycine) ELISA Kit EBT-ELK0836

Article Name	Human Gly(Glycine) ELISA Kit
Biozol Catalog Number	EBT-ELK0836
Supplier Catalog Number	ELK0836
Alternative Catalog Number	EBT-ELK0836-96, EBT-ELK0836-48, EBT-ELK0836-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Human
Concentration	100 µg/mL
Range	1.57-100 µg/mL
Sensitivity	0.56 µg/mL
Samples	serum, plasma, cell lysates, cell culture supernates and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Microbiology and biochemistry. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Human Gly. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Human Gly. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Human Gly in the samples is then determined by comparing the OD of the samples to the standard curve
