Product Datasheet

Pig GC(Glucagon) ELISA Kit EBT-ELK0925

Article Name	Pig GC(Glucagon) ELISA Kit
Biozol Catalog Number	EBT-ELK0925
Supplier Catalog Number	ELK0925
Alternative Catalog Number	EBT-ELK0925-96, EBT-ELK0925-48, EBT-ELK0925-96X5
Manufacturer	ELK Biotechnology
Category	Kits/Assays
Species Reactivity	Porcine
Concentration	2000 pg/mL
Range	31.25-2000 pg/mL
Sensitivity	11.31 pg/mL
UniProt	P01274
Samples	serum, plasma and other biological fluids

Application Notes

Assay Type: Competitive Inhibition. Assay length: 2h. Research Area: Endocrinology,. Test principle: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with Pig GC. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Pig GC. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Pig GC in the samples is then determined by comparing the OD of the samples to the standard curve
