Product Datasheet

Human Phosphatidylinositol-binding clathrin assembly protein (PICALM) ELISA Kit ASC-KTE61213

Article Name	Human Phosphatidylinositol-binding clathrin assembly protein (PICALM) ELISA Kit
Biozol Catalog Number	ASC-KTE61213
Supplier Catalog Number	KTE61213
Alternative Catalog Number	ASC-KTE61213-48, ASC-KTE61213-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Phosphatidylinositol-binding clathrin assembly protein (PICALM) ELISA Kit employs a two-site sandwich ELISA to quantitate PICALM....
Range	Please inquire
Sensitivity	Please inquire
Tag	PICALM
NCBI	8301
UniProt	Q13492
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes	This Human Phosphatidylinositol-binding clathrin assembly protein (PICALM) ELISA Kit employs a two-site sandwich ELISA to quantitate PICALM in samples. An antibody specific for PICALM has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any PICALM present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for PICALM is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of PICALM bound in the initial step. The color development is stopped and the intensity of the color is measured.
