| Alternative Catalog Number | FBM-10-4792-5MG,FBM-10-4792-25MG                                                                                                                                                                                                        |
| Manufacturer               | Focus Biomolecules                                                                                                                                                                                                                      |
| Category                   | Biochemikalien                                                                                                                                                                                                                          |
| Product Description        | RIP1 inhibitor...                                                                                                                                                                                                                       |
| Molecular Weight           | 377.40                                                                                                                                                                                                                                  |
| Purity                     | 98% by HPLC NMR (Conforms)                                                                                                                                                                                                              |
| Form                       | Off-white solid                                                                                                                                                                                                                         |
| CAS Number                 | [1622848-92-3]                                                                                                                                                                                                                          |
| Formula                    | C20H19N5O3                                                                                                                                                                                                                              |
| Application Notes          | GSK2982772 is a highly selective inhibitor of Receptor-interacting Protein 1 kinase (RIP1), IC50 = 1.6 nM.1 Novel anti-inflammatory agent previously in clinical trials for psoriasis, rheumatoid arthritis, and ulcerative colitis.2,3 |
