| Manufacturer               | UBPBio, LLC                                                                                                                                                                                                                     |
| Category                   | Sonstiges                                                                                                                                                                                                                       |
| Species Reactivity         | Human                                                                                                                                                                                                                           |
| Product Description        | The linear ubiquitin chains are formed by conjugating the N-terminal methionine residue of one ubiquitin with the C-terminal glycine residue of another ubiquitin. This product is expressed in E. coli as a fusion protein.... |
| Molecular Weight           | 33.1 kDa                                                                                                                                                                                                                        |
| Buffer                     | 20 mM Tris, 150 mM NaCl, 2 mM BME, 10% Glycerol                                                                                                                                                                                 |
| Source                     | E. coli recombinant                                                                                                                                                                                                             |
