| Category                   | Kits/Assays                                                                                                                       |
| Application                | FA                                                                                                                                |
| Species Reactivity         | All                                                                                                                               |
| Product Description        | This is a metabolite assay kit for the Detection and Quantification of Choline Content. This product is for Research Use Only.... |
| CAS Number                 | [62-49-7]                                                                                                                         |
| Samples                    | Urine, Serum, Plasma, Tissue extracts, Cell lysate, Cell culture media, Other biological fluids                                   |
| Application Notes          | Detection Method: Colorimetric. Platform: Microplate reader 570 nm                                                                |
