| Product Description        | Plays an important role in the ubiquitin-proteasome pathway. Ubiquitin can be covalently linked to many cellular proteins by the ubiquitination process, which targets proteins for degradation by the 26S proteasome. Three components are involved in th... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
