| Product Description        | Glutamic-Oxalacetic Transaminase (GOT) / Aspartate Aminotransferase (AST) is commonly studied in biochemical and cellular metabolism research to quantify pathway activity and characterize functional changes during disease, stress, or drug treatment. ... |
| Samples                    | Serum, Plasma, Cell Culture Supernatant and other biological samples.                                                                                                                                                                                         |
