| Product Description        | The GENLISA Human Tumor Protein Translationally Controlled 1 (TPT-1 / TPT1) ELISA includes features like: - Ready to use protocol with break-apart wells for ease of use - Standardisation and High Reproducibility - Lot to Lot Consistency - Accuracy an... |
| Range                      | 0.32 - 20 ng/ml                                                                                                                                                                                                                                               |
| Sensitivity                | 0.115 ng/ml                                                                                                                                                                                                                                                   |
| Samples                    | Serum, Plasma, Cell Culture Supernatant and other biological samples. Validated for citrated/EDTA Plasma only.                                                                                                                                                |
