| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | ALDOC, also as known as fructose bisphosphate C, is a member of the class 1 fructose-biphosphate aldolase family. This protein is a ubiquitous enzyme that catalyzes the reversible aldol cleavage of fructose-bisphosphate and fructose 1-phospate to dig... |
| Molecular Weight           | 39.4                                                                                                                                                                                                                                                          |
| NCBI                       | <a href="#">005156</a>                                                                                                                                                                                                                                        |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in 20mM Tris-HCl, pH 8.0, 2mM DTT, 0.1M sodium chloride, 20% glycerol.                                                                                                                                                                   |
