| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Pure Phaseolus lunatus lectin from lima bean, covalently linked to colloidal gold (10nm particle size). Lectins are derived from the extracts of plants, animals, viruses and microorganisms and are known to agglutinate red blood cells. These agglutini... |
| Form                       | Supplied as a liquid in dH2O, pH 7.0-7.5. Labeled with colloidal gold (10nm).                                                                                                                                                                                 |
