| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Cyclic AMP-dependent phosphodiesterase type D (PDE4D) family is comprise of 5 variants (PDE4D1, D2, D3, D4 and D5, 1, 2). One or more PDE4D subtype-variants are ubiquitously present in all mammalian cells. In CNS all five PDE4D subtype-variants are e... |
| Molecular Weight           | 102.4                                                                                                                                                                                                                                                         |
