| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | IHC, WB                                                                                                                                                                                                                                                       |
| Immunogen                  | Synthetic peptide corresponding to 14aa near the C-terminus of human TRIF.                                                                                                                                                                                    |
| Product Description        | TRIF is a member of the Toll/interleukin-1 receptor (TIR) family, a group of proteins that include the Toll-like receptors (TLRs) (1-3). TLRs are signaling molecules that recognize different pathogen-associated molecular patterns (PAMPs) and serve as... |
| NCBI                       | <a href="#">891549</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by Ion Exchange chromatography.                                                                                                                                                                                                                      |
| Form                       | Supplied as a liquid in PBS, pH 7.2, 0.02% sodium azide.                                                                                                                                                                                                      |
