| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Application                | ELISA                                                                                                                                                                                                                                                         |
| Product Description        | Embryonic vascular system undergoes a series of complex, highly regulated series of events involving differentiation, migration and association of primitive endothelial cells. This process is termed vasculogenesis. A further remodeling of the primiti... |
| Purity                     | Purified                                                                                                                                                                                                                                                      |
| Form                       | Supplied as a lyophilized powder from PBS, 0.05% sodium azide.                                                                                                                                                                                                |
