| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FLISA, IP, WB                                                                                                                                                                                                                                                 |
| Immunogen                  | Recombinant human beta-TrCP fusion protein.                                                                                                                                                                                                                   |
| Product Description        | Beta-TrCP plays a relevant role in the control of stability of several key protein factors. In Xenopus, beta-TrCP acts as an inhibitor of Wnt signaling and dorsal axis formation. A variety of cellular stress can induce the level of beta-TrCP mRNA and... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [6A200]                                                                                                                                                                                                                                                       |
| Purity                     | Purified by Protein A affinity chromatography.                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in PBS, pH 7.2. No preservatives added. Labeled with Fluorescein isothiocyanate (FITC).                                                                                                                                                  |
