| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, FC                                                                                                                                                                                                                                                     |
| Immunogen                  | Recombinant bovine TNF alpha.                                                                                                                                                                                                                                 |
| Product Description        | TNF alpha is a 17.5kD cytokine, expressed by many different stimulated cell types including monocytes, macrophages, endothelial cells, fibroblasts and both T and B-lymphocytes. The production of TNF alpha is induced by a variety of factors, dependent... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [10F545 CC328]                                                                                                                                                                                                                                                |
| Isotype                    | IgG2a                                                                                                                                                                                                                                                         |
| UniProt                    | <a href="#">Q06599</a>                                                                                                                                                                                                                                        |

|        |                                                                                |
|--------|--------------------------------------------------------------------------------|
| Purity | Purified by Protein G affinity chromatography from tissue culture supernatant. |
| Form   | Supplied as a liquid in PBS, pH 7.4, 0.09% sodium azide. Labeled with Biotin.  |
