| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Host                       | Goat                                                                                                                                                                                                                                                          |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, WB                                                                                                                                                                                                                                                     |
| Immunogen                  | Recombinant protein corresponding to human VEGF expressed in E. coli.                                                                                                                                                                                         |
| Product Description        | The vascular endothelial growth factor (VEGF) family currently includes VEGF-A, VEGF-B, VEGF-C, VEGF-D, VEGF-E, and PlGF. VEGF and its receptor system have been shown to be the fundamental regulators in the cell signaling of angiogenesis. Most tumors... |
| UniProt                    | <a href="#">P15692</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by immunoaffinity chromatography.                                                                                                                                                                                                                    |
| Form                       | Supplied as a lyophilized powder from PBS, pH 7.2. No preservative added.. Reconstitute with sterile PBS, 0.1% BSA to a concentration of 0.1-1mg/ml. Do not vortex. Labeled with Biotin.                                                                      |
