| Manufacturer               | Boster Bio                                                                                                                                                                                                                                                   |
| Host                       | Rabbit                                                                                                                                                                                                                                                       |
| Category                   | Antikörper                                                                                                                                                                                                                                                   |
| Application                | ELISA, ICC, IF, IHC, WB                                                                                                                                                                                                                                      |
| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                                                                                            |
| Immunogen                  | E.coli-derived human AATF recombinant protein (Position: Q5-H552). Human AATF shares 78.5% and 79.9% amino acid (aa) sequence identity with mouse and rat AATF, respectively.                                                                                |
| Product Description        | Boster Bio Anti-AATF Antibody Picoband catalog A03945-3. Tested in WB, IHC, ICC/IF, IF, ELISA applications. This antibody reacts with Human, Mouse, Rat. The brand Picoband indicates this is a premium antibody that guarantees superior quality, high a... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                   |
| Concentration              | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                                                                                                    |
| Molecular Weight           | Observed Molecular Weight: 95 kDa. Calculated Molecular Weight: 52588 MW                                                                                                                                                                                     |

|                    |                                                                                                                                                                                                                               |
