| Manufacturer               | Biorbyt                                                                                                                                                                                          |
| Category                   | Proteine/Peptide                                                                                                                                                                                 |
| Species Reactivity         | Human                                                                                                                                                                                            |
| Product Description        | Fluorescent Human CLDN18.2 Full Length Protein-VLP (EGFP)...                                                                                                                                     |
| Molecular Weight           | The human full length CLDN18.2 fusion protein has a MW of 54.2 kDa                                                                                                                               |
| UniProt                    | <a href="#">P56856</a>                                                                                                                                                                           |
| Form                       | Lyophilized from sterile PBS, pH 7.4. Normally 5 % - 8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions of reconstitution. |
| Target                     | CLDN18.2                                                                                                                                                                                         |
