| Category                   | Proteine/Peptide                                                                                                                                                                                                                                                                |
| Product Description        | This Human VSIG4 Protein spans the amino acid sequence from region 20-283aa. Purity: Greater than 95% as determined by SDS-PAGE....                                                                                                                                             |
| Molecular Weight           | 30.6 kDa                                                                                                                                                                                                                                                                        |
| UniProt                    | <a href="#">Q9Y279</a>                                                                                                                                                                                                                                                          |
| Buffer                     | Lyophilized from a 0.2 µm filtered 20 mM Tris-HCl, 0.5 M NaCl, 6% Trehalose, pH 8.0                                                                                                                                                                                             |

|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes | Biological Origin: Homo sapiens (Human). Biological Activity: Measured by its binding ability in a functional ELISA. Immobilized Human VSIG4 at 2 µg/ml can bind Anti-VSIG4 recombinant antibody, the EC50 is 51.14-68.73 ng/mL. Application Notes: We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference |
