### Recombinant Frog virus 3 Major capsid protein (FV3-090R) BYT-ORB1785390

|                            |  |
|----------------------------|--|
| Article Name               | Recombinant Frog virus 3 Major capsid protein (FV3-090R)   |
| Biozol Catalog Number      | BYT-ORB1785390   |
| Supplier Catalog Number    | orb1785390   |
| Alternative Catalog Number | BYT-ORB1785390-1,BYT-ORB1785390-100,BYT-ORB1785390-20  |
| Manufacturer               | Biorbyt  |
| Category                   | Proteine/Peptide   |
| Product Description        | This Recombinant Frog virus 3 Major capsid protein (FV3-090R) spans the amino acid sequence from region 1-463aa. Purity: Greater than 90% as determined by SDS-PAGE....  |
| Molecular Weight           | 57.4 kDa   |
| UniProt                    | <a href="#">Q67473</a>   |
| Buffer                     | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0. |
| Source                     | Frog virus 3 (isolate Goorha) (FV-3)   |
| Purity                     | Greater than 90% as determined by SDS-PAGE.  |
| Form                       | Liquid or Lyophilized powder   |

| Application Notes | Biological Origin: Frog virus 3 (isolate Goorha) (FV-3). Application Notes: We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference |
