Product Datasheet

Human Interleukin 4 (IL-4) High Fast ELISA Kit BYT-ORB1806763

Article Name	Human Interleukin 4 (IL-4) High Fast ELISA Kit
Biozol Catalog Number	BYT-ORB1806763
Supplier Catalog Number	orb1806763
Alternative Catalog Number	BYT-ORB1806763-48,BYT-ORB1806763-96
Manufacturer	Biorbyt
Category	Kits/Assays
Species Reactivity	Human
Product Description	Human Interleukin 4 (IL-4) High Fast ELISA Kit...
Range	1.56-100pg/mL
Sensitivity	0.94 pg/mL
UniProt	P05112
Samples	Serum, Plasma and Tissue homogenate and other biological samples,Sample volume:25µL
Target	IL-4

Application Notes

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to HF-Human IL-4. Samples (or Standards) are added to the micro ELISA plate wells and combined with the specific antibody and biotinylated detection antibody specific for HF-Human IL-4. Then Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain HF-Human IL-4, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of HF-Human IL-4. You can calculate the concentration of HF-Human IL-4 in the samples by comparing the OD of the samples to the standard curve
